

SHADOW OF THE SUN

Advisor : Mr.Anek Tanompol

Authors : Miss Phannaphat Kongkaew, Mr.Natthakorn Saeang

ABSTRACT

Shadow of the sun is a game that is a sequel to the current social situation that has changed a lot from the past. Especially social problems that continue to occur, such as sexual harassment, physical abuse in the family or being abused by a loved one. The Authors therefore had an idea to campaign against the violence that had occurred. By creating an investigative game in the form of a visual novel so that players can take on the role of a detective in solving various cases that occur. The game will reflect problems that occur in society and insert attitudes. Good for players to learn. And in addition, the organizing team has an idea to use the Ren'Py program to create an investigative game project, which will be a game that will be interesting and fun for the players.

PROBLEM

Violence that occurs in society

A visual novel game with content that reflects problems and promotes a positive attitude.

PROCESS

PROGRAM

Ren'py

Visual studio

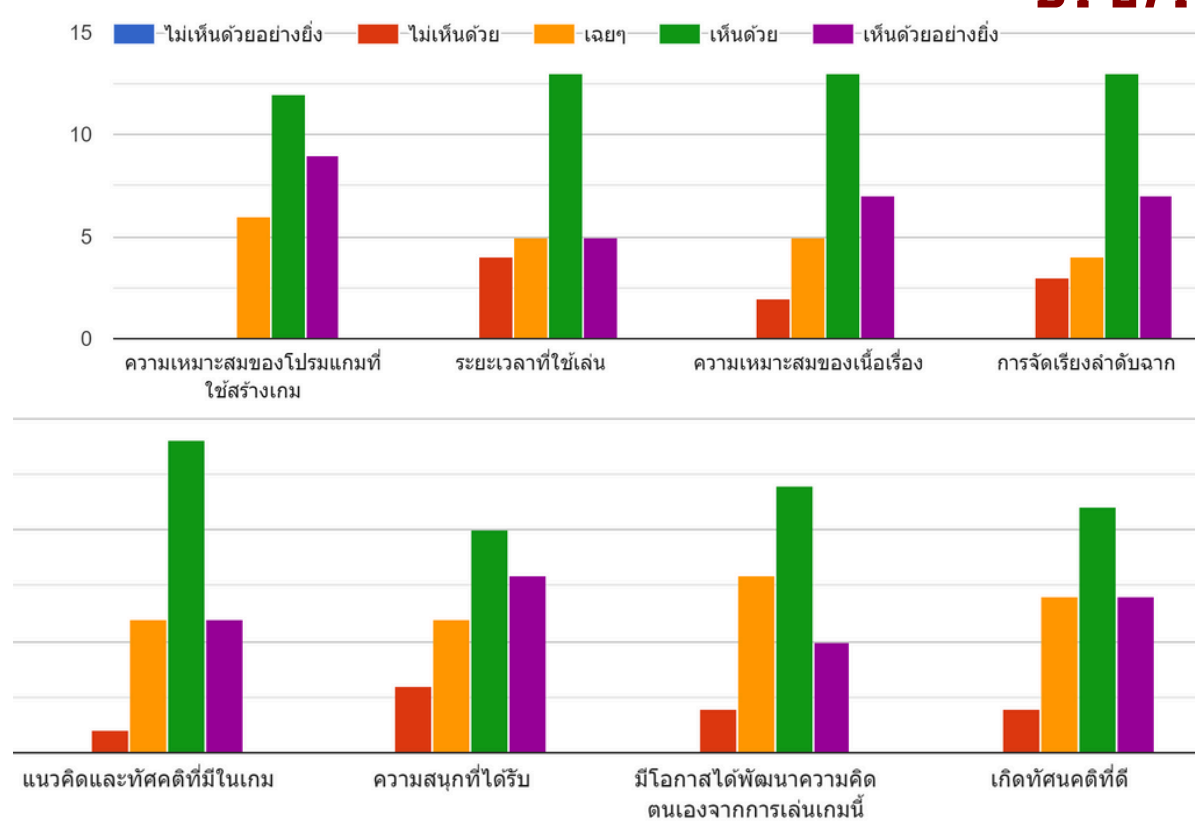

Procreate

OBJECTIVE

- To create a game that can reflect society and a good attitude for players to learn.
- To develop a fun and exciting game for players to experience a realistic murder investigation filled with mystery.

BY 27 PEOPLE EXPERIMENTING RESULTS

Have the experimenters complete a questionnaire after the experiment. To summarize how much the game can make players aware of the problem.

RESULTS

SUMMARY

From conducting a test with a total of 27 players in the trial period and having all testers complete a form asking for opinions after playing Shadow of the Sun, it was found that the majority of testers gave their opinions on various issues. that appears in the story 'Agree'

From asking all 27 test players, 'Are the players aware of the problem of violence that occurs within society?' After playing the game Shadow of the Sun, it was found that from the questionnaire results, 85.2% gave the answer that 'Able to be aware of the problem of violence occurring within society' and 14.8% gave the answer that 'Unable to realize the problem of violence that occurs within society' found that the majority of test takers were able to realize the problem of violence occurring. From playing the game Shadow of the Sun
